England doesn't have to "mobilize." She has been that way for some time with suffragette mobs.

What little clothing the ladies wear will now have to be made in the United States. No more gowns from France.

One of the miracles of the campaign was the way the two Owensboro papers toted water for the same elephant.

Harry Sommers carried his county by 615, Jim Lemon held his by 190, but Urey Woodson fell outside the breastworks by 449.

The war liars are starting out worse than the campaign liars. All news is censored and it is not safe to believe half that is sent out.

Stanley is evidently determined to be beaten fairly, if beaten at all. With the federal courts open to him, he is preparing to investigate charges of fraud in many counties.

The German and French staffs are concealing their objects until the completion of mobilization. The Kaiser's oldest son, Frederick William, is to be commander of the First Division.

## DINNER TO COUNTY BOARD

Of Education Given By Prof. And Mrs. L. E. Foster.

Tuesday Prof. and Mrs. L. E. Foster delightfully entertained the County Board of Education with a dinner party at their residence on Central avenue.

The dinner was an excellent one and was very tastily served. Those present at the dinner were: A. M. Henry, W. S. Lacy, J. T. Smithson, J. C. Johnson, J. R. Marquess, Geo. W. Buchanan, E. T. Griffin and Edgar Harned.

At the meeting A. M. Henry tendered his resignation as trustee of sub-district No. 5. This was accepted and R. H. McGaughey was selected to fill the vacancy for the term ending Sept. 1, 1915.

Declaration by Great Britain of State of War With Germany Was Announcement Whole World Was Expecting To Hear

ALL OF EUROPE TO CLASH IN THE TITANIC STRUGGLE.

Alignment of Nations in Greatest Resort to Arms in History—Other Governments Mobilizing—Servia to Invade Bosnia.

London, Aug. 5.—Great Britain declared war on Germany last night.

The momentous decision of the British government, for which the whole world had been waiting, came before the expiration of the time limit set by Great Britain in her ultimatum to Germany demanding a satisfactory reply on the subject of Belgian neutrality.

Germany's reply was the summary rejection of the request that Belgian neutrality should be respected.

The British ambassador at Berlin thereupon received his passports and the British Government notified Germany that a state of war existed between the two countries.

The British foreign office has issued the following statement:

"Owing to the summary rejection by the German government of the request made by His Britannic Majesty's government that the neutrality of Belgium should be respected, His Majesty's ambassador at Berlin has received his passports, and His Majesty's government has declared a state of war exists between Great Britain and Germany from 11 o'clock p. m., Aug. 4."

All Europe is in arms.

On the one hand Austria-Hungary and Germany are opposed by Russia, France, Great Britain, Servia and Montenegro.

Italy has declared her neutrality but is mobilizing. Belgium, Holland and Switzerland have mobilized.

Germany's demand that the Belgian government should permit the free passage of German troops through Belgium was answered by hasty preparations to resist such an advance across the Belgian territory.

Sweden has made no answer to inquiries from Russia and Germany regarding her attitude, but is preparing to defend her neutrality.

Japan is making ready to live up to her alliance with Great Britain in case of certain eventualities.

Spain is reported to be preparing a proclamation of neutrality.

Austria-Hungary for the moment has retired from her campaign against Servia for the purpose of holding back Russia, and Servia has mobilized with the reported intention of invading Bosnia.

## Condensed War News.

The German border troops from Lublinitz, Silesia, Tuesday after a short skirmish with Russians, took possession of Czenstochowa, Bendzin and Kalisz, Russian Poland.

Czenstochowa is a city of some 50,000 inhabitants, situated on the river Waethe, near the Silesian frontier. It is noted chiefly for its manufactures of woolen and cotton cloths and paper.

Bendzin is a coal and mining center. It has a population of slightly over 20,000, about half of whom are Jews.

Kalisz is the capital of the province of the same name. It is the most westerly city in Russian Poland. Its population of 20,000 is engaged in various manufactures.

Germany has issued a white book, justifying her action with respect to Russia, and at the same time German diplomats at London are using

their utmost efforts to win Great Britain to a position of neutrality.

The German ambassador at Paris was ordered by the emperor to demand passports, which lines up France with Russia, Servia and Montenegro against Germany and Austria-Hungary.

The mobilization of most of the countries of Europe has been virtually completed.

## KING'S APPEAL TO CZAR

Reply Was That Germany Was Preparing.

London, Aug. 5.—King George's telegram to the Russian emperor, in a final effort to avoid war, and the emperor's reply have been made public. The king said:

"I make a personal appeal to you to leave open the ground for negotiations for possible peace."

The Russian emperor replied he would have accepted the proposals had not Germany declared war.

"Germany," says the emperor, "showed no disposition to mediate and her preparations and those of Austria made it imperative that Russia should mobilize, but I gave most categorical assurances to the German emperor that the Russian troops would not move so long as the negotiations continued."

The reply concludes: "I trust your country will not fail to support Russia and France. God bless and protect you."

## PASSES BLAME TO FRANCE

German Attitude Is That Former Is Aggressor.

Berlin, Aug. 3.—A further official communication regarding French acts of hostility against Germany was published here tonight. It said:

"The German troops hitherto have obeyed orders not to cross the French frontier. French troops, on the contrary, since yesterday have made several attacks on the frontier posts without any declaration of war having been made."

"The French have crossed the frontier at several places in spite of the fact that the French government a few days ago informed us that it would not infringe on the unoccupied zone of six miles from the frontier and since last night companies of French troops have been in the occupation of a number of German villages."

"French army aeroplans have been flying over Baden and Bavaria yesterday and today throwing bombs and have violated Belgian neutrality by flying over Belgian territory into the province of the Rhine in an effort to destroy our railways."

"In this way France has opened the attack upon us and has established a state of war which has compelled the German empire to take measures for the security of its territory."

DR. BLAKEY  
MODERATOR

Was Re-elected To Preside Over The Bethel Baptist Association.

FINE CHURCH HILL DINNERS

Features Of The Gatherings Both Tuesday and Wednesday.

Bethel Baptist Association met at South Union church Tuesday with an unusually large representation from the 39 churches in the body. The messengers from other counties were met at the train with a string of autos and taken six miles to Church Hill.

The association organized by re-electing Dr. T. W. Blakey moderator and Rev. H. E. Gabby assistant moderator. Rev. J. F. Griffith, of Howell, was elected clerk.

The association got down to business by reading letters from the various churches. Reports were discussed in the afternoon. Rev. W. D. Powell, State Secretary, delivered a stirring address on missions. There was preaching at the church at night.

The ladies held a special meeting Tuesday in the Grange Hall near by. The dinner at noon spread on the grounds for everybody was a great feature. The people of Church Hill have no superiors anywhere when it comes to feeding big crowds.

Yesterday the association continued its routine work and adjourned in the afternoon.

M'CREARY  
CHEERFUL

Although Defeated, And Promises To Work For The Democrats.

Frankfort, Ky., Aug. 3.—Governor McCreary returned to Frankfort yesterday feeling fine and without any sore spots. He is eager to congratulate the nominee for United States Senator as soon as he learns definitely who is the lucky man.

That his majorities promised him in the big cities were switched to Congressman Stanley the day before the election there can be no doubt. He will take the stump for the candidate, he said last night, and thinks the Democrats will win in the November election.

Governor McCreary said:

"My friends two days before the primary election informed me I would have large majorities in Lexington, Louisville, Covington, Newport and other cities; but the day before the election the lines were drawn close between Stanley and Beckham on certain issues, especially on the temperance question, and my majorities were transferred."

"There were a number of counties where the same work was done. I have no animosity to any person and I am thankful to my Democratic friends and supporters for the thousands of votes cast for me. I am especially grateful that my home county, Madison, gave me a thousand majority over both of my opponents."

"I expect to return to Richmond when my term as Governor expires. I will congratulate the candidate for United States Senator, long term, as soon as I ascertain certainly who has been nominated, and I will stand ready to vote for the nominee and make speeches in his favor before the November election."

STOCK BARN  
IS STRUCK

During Electrical Storm Monday Afternoon And Loss Heavy.

KILLED TEN FINE MULES.

Farm Owned By Summers Heirs And Operated By J. O. Steger.

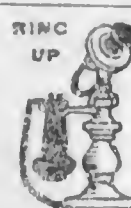

Monday afternoon at about 4:30 a big stock barn on the Summers farm on the Clarksville pike operated by J. O. Steger, was struck by lightning and set on fire. The flames followed the lightning stroke almost immediately and the conflagration was under way so soon that it was impossible to save anything.

Ten fine mules were in the barn and all of these were killed as a result of the fire. Another mule that was in the barn managed to escape, but was burned so badly that it is not expected to be of any use in future. The barn belongs to Miss Frances Summers and her brother Will Summers and the loss of the stable falls upon them. It was a large building, well built, and containing all modern conveniences. The loss is estimated at over \$2,000 and there is no insurance.

In addition to the mules, Mr. Steger lost his farm implements, some harness and a quantity of feed-stuff. He estimates his loss at \$2,500. There was a partial insurance, \$1,500 of which was on the mules.

WHEAT IS  
GOING UP

American Flag Will Float Over All Shipping Needed To Transport Cereals.

Chicago, Aug. 5.—European buying of American wheat in defiance of the mishaps of war began yesterday. British government guarantee against possible loss by ocean capture of any part of the millions of bushels previously under contract to go to English ports opened the way for additional purchasing, notwithstanding that the guarantee had not been formally extended to transactions entered into since war was declared.

Prices of wheat turned upward to an extreme of 35-36c a bushel and closed strong with net gains of 2 1/2 to 2 5/8. All the other leading staples on board of trade joined in the advance.

Both foreign and domestic investors appeared to believe that the signing of the bill to put under the protection of the American flag all the shipping needed was only a matter of a few hours and that the temporary financial strain here had been relaxed.

UNTIL OFFICIAL  
COUNT IS MADE

Stanley People Take Steps To Protect Interests In Various Counties.

CLAIM RACE IS VERY CLOSE.

Doubt Still Exists As to Who Won Republican Senatorial Nomination.

Louisville, Ky., Aug. 5.—Congressman A. O. Stanley, of Henderson who remains in Louisville, positively refuses to concede the nomination of J. C. W. Beckham for the Democratic nomination for the long term senatorship despite the small apparent lead of the latter, and is awaiting the result of the official count, which is in progress in each county of the State.

Corrected returns received at the Stanley headquarters from nearly every county in the State, it was stated, showed irregularities in some counties sufficient to wipe out the lead shown for Beckham on the face of the returns. In the First and Second districts alone, the Stanley managers assert, Beckham's lead has been cut down by over 700 votes and the same condition exists with respect to nearly every other district. Steps have been taken by the Stanley people to protect the interests of the Henderson man at the official count, which is expected to disclose other irregularities, besides increasing Stanley's total vote.

"This is the same old stall of the opposition," said a Stanley manager, "to claim the earth and the fullness thereof without any regard to the real facts. They know this race is close, in fact, closer than they like to admit."

According to information received at Stanley headquarters, Campbell and Kenton counties gave Mr. Stanley about 100 votes each more than the first returns showed.

Late returns from Fulton county add 33 votes to the Stanley column, according to Stanley workers and revised figures from Pike county increase his count by 57. It was said at Stanley headquarters that the official count of the vote in Jefferson county would show that Mr. Stanley received 223 more votes than was accredited with on the night of the primary.

Among the telegrams received at Stanley headquarters was one signed by A. G. Lyon, of Central City, Muhlenberg county, in which he said it had been reported that Dr. M. E. Alderson, of Russellville, Logan county, could give the names of fifty persons who voted in Precinct No. 4 of the county for Stanley, although the returns from that district show that only sixteen persons voted in the Second district Congressional.

"If there was crookedness, it means to unearth it," said a Stanley worker at headquarters, "and we shall spare no expense in the unearthing."

Mr. Stanley gave out a statement in which he said that the race between him and Mr. Beckham was very close, and that he believed an accurate count of the vote would show a difference not in excess of 2,000.

"From Logan county we have received a great many complaints," Mr. Stanley said, "and we mean to sift them. In a great many instances in that county we were denied inspectors and challengers, I have been informed, and persons who desired to vote for me were not permitted to do so because, away back in the past, they had voted against a single Democratic nominee perhaps. The same was true in Todd county and Boone county."

President Wilson has sent a special message to Congress asking immediate appropriation of \$250,000 for relief of distressed Americans abroad.

Emperor Nicholas has issued a manifesto outlining the events leading up to the declaration of war by Germany and said that "Russians will rise like one man and repulse the insolent attack of the enemy."

The directors of the American hospital in Paris have made an offer to the French government to fit up a wing in a school in Neuilly as a hospital to take care of from 150 to 200 French wounded and to provide a full staff of American doctors and nurses.

In the Appellate Court race in the Third Appellate district, Judge J. P. Hobson, of the Court of Appeals, was defeated for the Democratic nomination by Mr. Rollin Hurt, of Columbia. Judge Hobson has conceded that Mr. Hurt has carried the district by from 3,500 to 5,000.

The French embassy in London has been informed of the declaration of Italian neutrality and that Italy probably will call out one or two classes of the army, but with no aggressive idea. It is stated that Italy does not intend to reinforce her troops either on the French or Austrian frontiers. It also is announced officially that Turkey will proclaim her neutrality.

President Wilson has appealed to the people of the United States to remain calm during the war in Europe. He declared the United States owes it to mankind to help the rest of the world during the present crisis. The President declared the United States could gain great and permanent glory during the present trouble providing no one lost his head. The President urged that nothing be done in America to add to the excitement of the world.

## VICTORY OF 1812.

One hundred years ago occurred the engagement between the Americans and the British at Sandy creek, near Sackett's harbor, on Lake Ontario. In the early morning a flotilla of 16 barges, laden with naval stores, was discovered at the mouth of the creek by the British squadron which was blockading Sackett's harbor. A boat party from the fleet, attempting pursuit, became entangled in the narrow creek and was attacked by a force of Americans with some Indian allies. After a desperate resistance, in which they lost 70 men in killed and wounded, the British force was overpowered and 140 made prisoners. These were with difficulty saved from massacre by the Iroquois, by the vigorous interposition of the Americans.

## Terrible Picture of Suffering

Clinton, Ky.—Mrs. M. C. McElroy, in a letter from Clinton, writes: "For six years, I was a sufferer from female troubles. I could not eat, and could not stand on my feet, without suffering great pain. Three of the best doctors in the state said I was in a critical condition, and going down hill. I lost hope. After using Cardui a week, I began to improve. Now I feel better than six years." Fifty years of success, in actual practice, is positive proof that Cardui can always be relied on, for relieving female weakness and disease. Why not test it for yourself? Sold by all druggists.

## Mineral Wealth in Quebec.

The new territory, Ungava, recently added to the Province of Quebec, is believed to contain rich mineral deposits. Only a very few trails have yet been made through this enormous territory—an empire in itself, containing a superficies of no less than 351,780 square miles, or 225,139,200 acres. Yet upon its very outskirts, there are a number of most promising indications. An iron deposit has actually been worked, gold, mica, antimony, and copper have been found, and some of the leading authorities of the Geological survey have declared that diamonds may yet be discovered in the northern region, those found in the glacial drift of Wisconsin having apparently been transported by ice during the glacial period from some point in the Laurentian region in the neighborhood of Hudson bay. In fact, a couple of years ago a Montreal jeweler bought a large diamond said to have been discovered in Ungava.

## BY THE LONE, LORN BACHELOR

Unfortunate Man Records His Animosity Against the Inventor of Pickle Dishes.

From a Missouri town came a wedding invitation. "Mr. ——" was the inscription on both envelopes and as it was tossed to the hapless heap on my dresser I pondered over my bachelorhood. A flood of memories were revived by the dainty engraved cards—memories of soft, white hands that for the moment at parting had so often rested in my own—memories of the long and lonely years that lie between, and fragrant dreams of what might have been.

I was not surprised at the formal wedding announcement. She had hinted as much when, with the prerogative of long acquaintance, I had queried as to the ring glittering from her hand. "He's a dandy chap," she said, "you'd like him."

"Dandy chaps" they are, indeed, those winners of women's hearts, dandy chaps and theirs the reward: theirs the joy of living. The open hearths of their own firesides, the comforting companionship when the day's work is done. I mutiny in sheer envy. Their footsteps echoing on the walks fall upon ears listening for naught else, while my welcome is only the mechanical smile of the key clerk as he hands me the sesame to a lonely room. Realization palls me.

"It's a lonely old life," I muse half aloud, then, reclaiming from the pile of junk the wedding invitation and scanning the lines, "D—n the man who invented pickle dishes!"—Kansas City Star.

Pure gurgling, rippling water, fresh from deep ice cold wells, but you will need a Pump with which to do this.

After many years of experience in the Pump business, we have come to the conclusion that the "Red Jacket" So Easy to Fix and the Myers Deep and Shallow Well Pump, will cover any and all conditions that may arise in connection with elevating water, either by hand, Wind Mill or Gasoline Engine. This is due to the Mechanism of the Cylinder which is the heart of a Pump. Without "efficiency" in the Cylinder a Pump is worthless. That is where and how the Red Jacket and the Myers have established their reputation.

If you contemplate installing a system of Water Works, before doing so, we invite you to examine these pumps. It will be worth your while, besides save you Time and Money.

### PROFIT IN STUDY OF WORDS

Much Can Be Accomplished by Devoting a Short Time Each Day to the Subject.

The study of words; it may sound to you a dry thing, yet I promise you it is not—very far from it. And this brings me to suggest that the habit of one of the great writers of studying carefully from a good dictionary five words each day is one from which we might all of us get a good deal of profit. Or, take a good book of synonyms, for instance, and learn from it each day five words somewhat similar, comparing and weighing carefully the meanings and values of them. Notice the degrees of force in the following: To dislike, to hate, to loathe, to detest, to abhor—each note struck is a little stronger, higher, we might say, like an ascending crescendo scale. So, to instruct, to teach, to educate are each quite different in meaning, with great nicety of difference. So, rebuke, reprimand, censure, blame are all of one color, but of how different shades of meaning. So, too, misfortune, calamity, disaster; so, weak, feeble, decrepit; and what delicate difference between fame and renown, or feminine and womanly and womanish?—Exchange.

### WOMAN'S REASON

Hubby—I never knew any good to come of keeping Lent.

Wife—Why, my dear, look at Mrs. Jones. She was cleaning a fish and found a diamond ring in its inside.

### DANCING FIFTY YEARS AGO.

A correspondent appeals to hostesses to make introductions fashionable at London's best dances. This to help the young woman who is "compelled to sit out dances." Half a century ago and the young woman would not have been allowed even to sit out these dances. G. W. E. Russell tells of the restrictions which hedged in the fashionable miss:

"Young women were only allowed to waltz with their brothers or cousins. Their acquaintances were limited to square dances. No sitting out at a ball was permitted. At the end of each dance the man took his partner back to her chaperon, to whom he made a bow as he restored her charge."—London Times.

### NAMED.

"Who is that powerful giant who looks like a modern Samson?" asked the stranger.

"That is Percival Algernon Cyril Milk," replied the native.

"And who is the delicate, sissified looking chap with him?" asked the stranger.

"That's John L. Sullivan Hercules Strong," replied the native.

### PHYSICAL CULTURE.

Lady Customer—You have made my new traveling gown entirely too light.

Dressmaker—You are wrong, madam, it just fits you.

Lady Customer—Yes, it just fits now, but it won't in Europe. You know how travel broadens one.

### FASHIONABLE GRIEF.

Husband—Our boy is becoming very wild.

Wife—Yes, I fear he will bring my purple hairs in sorrow to the grave.

### THE REASON.

"Does your son belong to any esoteric society at college?"

"No, he don't. My boy don't drink."

### UNCERTAIN CROP.

"What will be the fruit of all your political labors?"

"I don't know yet whether the fruit will be lemons or plums."

### MUST ALLOW FOR "NERVES"

Important Thing That It Would Seem Average Husband Takes a Long Time to Learn.

I was extremely ignorant of women and their ways, and more ignorant of nerves, says a husband of twenty-five years' experience, in the American Magazine. Indeed, nerves were an item in the marriage relation that I had never considered, and it was years before the relation of nerves to marital happiness became known to me.

It takes the average man a long time after marriage to realize that his wife is a human being, much like himself, with the addition of some nerves, some superstitions, some prejudices and some finer emotions of which he knows little or nothing. Not many men have reached the state of marriage in as complete ignorance of women as I did. I had been rather bashful and shy with them as a boy and too busy to pay much attention to them as a man. Living in cities in which I was a stranger, I had no opportunity to meet the nice ones and no inclination to associate with the other kind. Being strong, healthy and normal, I knew nothing of nerves and had scant patience with their various manifestations, ordinarily attributing phenomena due to nerves to other causes.

### ANCESTRY TO BE PROUD OF

Forefathers of Mennonites of Pennsylvania Have Tilled the Soil for a Thousand Years.

British peers boast of being the eighth or twelfth of their line. But out in Lancaster county there are men whose ancestors for thirty generations have been farmers.

King George's folks have only been in the kinging business about two hundred years. That trade of peering, so popular abroad, is new compared with the lineage of husbandry of which some of the Mennonites might boast.

A thousand years of farming! No wonder Lancaster is the garden of a hemisphere. "Go where there is limestone," was the motto of the early German immigrants, and it was noted even a century ago by an ancestor of the Cox family where ever there was limestone soil in Pennsylvania could be heard the German language.

It was of young men of that stock about whom the celebrated Colonel Morgan of Virginia said after the Revolution:

"My Virginian riders were fine soldiers, but I also liked the Pennsylvania Dutch because they starved so well."—Philadelphia Ledger.

### QUEEN ADMIRER OF POTTERY.

The English queen is an admirer and collector of old Wedgwood pottery and at Windsor castle there is a room entirely devoted to this famous ware, some of the finest and rarest examples being displayed. Wedgwood pottery, the older examples of which are so much sought after, is named after the most famous potter England has ever produced—Josiah Wedgwood, who died in 1795. He produced from designs by Flaxman, the sculptor, white cameo reliefs on a delicate blue ground known and envied by collectors all over the world as Wedgwood ware. This ware is now very costly and practically beyond the means of the ordinary collector.

### TEST OF STATESMANSHIP.

"Your friend is a great statesman?"

"I'm sure of it."

"Why?"

"He can get his own price for a lecture, and leave the committee on arrangements perfectly satisfied when the gate receipts are counted."

### ONE METHOD.

Ambitious Young Man—Sir, can you tell me a good way to pick up a dollar?

Crusty Capitalist—Why not try your thumb and forefinger.

### A PROPER ONE.

"What decorations would you use for the ballroom to give it a cool look?"

"Why not use the ice plant?"

### GOOD GUARANTY.

Husband—Is this butter perfectly fresh?

Wife—The dealer told me it was just from the crematory.

### PELLAGRA CONFERENCE

Called To Meet In Pineville This Month.

The State Board of Health, at the suggestion of a large number of health officials, has called a second Conference for the study of Pellagra, together with a Conference of County and City Health Officers, at Pineville, Ky., for August 18, 19 and 20. During this Conference the laws enacted at the recent session of the Legislature for the prevention of blindness will also be discussed and steps will be taken looking to making them effective. Hundreds of physicians from all parts of the South will be present at the meeting.

### Mad Dog Bit Five.

Bowling Green, Ky., Aug. 3.—Five persons are here from Carrollton, Ky., taking the Pasteur treatment at the State laboratory. They are Harrison Marion, Jerry Bummel, John Crawford, Marion Sullivan and Little McCarty. They were bitten by a dog thought to have been mad, and which was at large on the streets of Carrollton.

### MR. GARY'S HOME.

On South Main Is Rapidly Going Up.

The beautiful new home of Mr. Geo. E. Gary, on South Main street, is being rapidly erected. The frame work of the house has been almost finished, although the work has begun only a short time ago. The house will be of red brick, veneer and two stories high. It gives promise to be one of the handsomest residences in the city.

### Systematic Numbering Needed

One of the most needed improvements in the city of Hopkinsville is a systematic numbering of the houses and office buildings. At present to give the number of a house to some one who is trying to find it, would be an absurdity as all the numbers are in confusion arrangement and entirely without order. They seem to be used simply as ornaments.

### Gets Lower Rates.

Bowling Green has won its fight for lower freight rates from the East through and order of the Interstate Commerce Commission:

But Never to Our Shelves.  
"What is your definition of 'filthy lucre'?" "That's a derogatory term applied to other people's money."—Baltimore Sun.

### SIXTY HOGS BITTEN

#### BY MAD DOG IN WARREN.

Bowling Green, Ky., Aug. 4.—Last evening eight hogs belonging to James Renick, a farmer of the Three Forks vicinity, went mad and tried to bite several persons, but were shot before anyone was injured. Renick and his little niece were bitten by a mad dog two weeks ago, and the same dog that bit Renick bit sixty hogs, and it is thought the others will go mad.

### PLUCKY GIRLS

Are Not Discouraged In Canning Club Movement.

The Christian County Canning Club girls are displaying much interest and enthusiasm in the growing of their ten acres of tomatoes.

Despite the drouth and other attendant misfortunes, quite a number of the young ladies have remained in the club and these have realized nice sums from the sales of their fresh fruit.

The merchants of Hopkinsville and the Pennyroyal Fair Association have been very generous in awarding prizes to be awarded these girls at the county fair. Prof. L. E. Foster, representing the board of education, has also donated a substantial sum.

### Close Finish

Revised figures, with all of the one hundred and twenty counties reported, nearly all of them in full, give Beckham 62,438, Stanley 59,883, McCreary 18,104. The official vote may make the count closer.

### Some War Figures

#### And Possibilities.

The German empire is about five times as large as Tennessee. Its area is 208,000 square miles. Its population is about 30 times that of Tennessee, or 64,000,000. The German empire could be placed in the United States 15 times.

Russia in Europe has an area almost as large as that of the United States. The total population of the Russian Empire is 166,000,000. Its area, Europe and Asia, is more than eight million square miles, or almost three times that of the United States. France has an area in Europe of 207,000 square miles and a population of 39,000,000.

France and her colonies have an area of 4,000,000 square miles and a population of almost 100,000,000.

The Austrian empire has an area of 260,000 square miles and 51,000,000 people.

Germany touches Russia from the Baltic down to Hungary. The line between Germany and Russia is about 600 miles long. The line between Russia and Austro-Hungary is about 300 miles long. The line between Germany and France is about 250 miles long.

Germany and France touch at Switzerland and then they stand together up as far as Luxemburg, which is a free grand duchy at the southeast point of Belgium.

If Germany and France respect the neutrality of Belgium the fighting between the two countries on land will be through a gateway of about 250 miles. Germany and Switzerland are between France and Austria.

Germany's seaports on the Atlantic are few. Hamburg, Bremen and Williamshaven are the chief. The German coast line on the Atlantic is not over 200 miles long, for Germany proper, but possibly 350 miles from

the point of Holland up to where Germany touches Denmark.

Germany has several seaports on the Baltic, but it can send its ships from the Baltic through to the North Atlantic by way of the Kiel Canal.

When Germany and Russia begin fighting on land the contest will be over what was once Poland.

If Germany and France also come to war, Germany will be compelled to fight Russia on the east and France 600 miles to the west. Austria can give Germany no aid as against France.

If England, France, Germany, Russia and Austria all come to blows, then, indeed, will there be 20,000,000 of men under arms on sea and on land.

As stated in this paper, we are starting into the world's greatest war. Whether it will last three weeks or three years no man can tell.

There are no precedents in history for it. It is unique in its colossal proportions. The end will surely change the map of Europe.

The European cloud is so eye consuming that we of the United States have not counted on an element of possible danger to ourselves. Japan may feel that now is the psychological time to strike for the supremacy of the Pacific and have an accounting with the United States. It is good that our Panama Canal is open and almost ready for the passage of our battleships.

Possibly the war will extend around the world, and when the nations have exhausted themselves then they will come to see the folly of what has been done.

They may abolish kings and do away with the pomp of courts and the glitter of war. After they have done away with these men and things they may see it possible to declare that warfare has been a tremendous absurdity since man began to dwell under the rules of so-called civilization.—Commercial Appeal.

### FOUR KILLED IN ELECTION FIGHT IN MOUNTAINS.

Whitesburg, Ky., Aug. 3.—Larce Hall who was desperately shot in the fight on Upper Rockhouse creek in this county, as a result of trouble over the election of a school trustee, in which four men were killed, including members of the Hall and Quillen families, late Saturday evening, is not expected to survive the day. Mrs. Albert Hall, who was also shot during the onslaught, will recover, unless complications arise, she having been shot through the foot.

### CURTIS LEADS IN

#### SENATOR'S RACE.

Topeka, Kan., Aug. 5.—United States Senator Joseph L. Bristow, apparently has been defeated for re-nomination by Charles Curtis, of Topeka. On available early returns from today's primary Curtis appears to be leading Bristow by a safe majority. Curtis said tonight he would carry the state by 15,000 votes.

### Not An Experiment.

Paint Lick, Ky.—Mrs. Mary Freeman, of this place, says: "Before I commenced to take Cardui, I suffered so much from womanly trouble, I was so weak that I was down on my back nearly all the time. Cardui has done me more good than any medicine I ever took in my life. I can't possibly praise it too highly." You need not be afraid to take Cardui. It is no new experiment. For fifty years, it has been found to relieve headache, backache, and similar womanly troubles. Composed of gentle-acting, herb ingredients, Cardui builds up the strength, preventing much unnecessary pain. Try it for your troubles, today.

### THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

This is a time of great events, and you will want the news accurately and promptly. All the countries of the world steadily draw closer together, and the telegraph wires bring the happenings of every one. No other newspaper has a service equal to that of The World and it relates everything fully and promptly.

The World long since established a record for impartiality, and anybody can afford its Thrice-a-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that it to be found in a first class daily.

THE THRICE-A-WEEK WORLD's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and Hopkinsville Kentuckian together for one year for \$2.65.

The regular subscription price of the two papers is \$2.00.

Sir A. Conan Doyle.

Sir A. Conan Doyle, who is in this country for a visit, is a giant in stature but a most delightful man to meet. He is an enthusiastic fisherman. When he was last in this country in 1894 he stopped for a time at Saranac lake in the Adirondacks. A guest at the same hotel at that time describes him as attired in steel blue Scotch tweed, knee breeches and a Lochinvar cap. The coat was made as a Norfolk jacket and between the belt and his ponderous bulk was a pair of gloves which he disdained to wear because the weather was not cold enough, although it was late fall.

### MARRIAGE A HABIT TO WOMEN

Writer Asserts They Want Husbands to Escape Being Called "Old Maids."

Women have the marrying habit; men do not. This is not strange, for generations of girls have been taught that every woman should be married, and that to remain unwed is a disgrace. Being a "married woman" has been a sort of boast of superiority on the part of wives. Naturally, because their mothers and almost every other person of their own sex put a great deal of emphasis on the desirability of being married, and none at all on the desirability, which sometimes exists, of remaining unmarried, girls looked on marriage as the goal of ambition, and bent their whole energies to getting husbands.

Rather than endure the stigma of being "old maids" they took the first man who gave them a chance. Their object was not love, not a husband, but simply to acquire the status, privileges and deference which they had been taught were denied to all of their sex except the "married woman."

The same mothers who fairly drive their daughters to marry are singularly reluctant to see their sons wed. The mother who is employing all the arts and craft of the chase to entrap some other woman's son for her daughter's husband will weep at the announcement that the other woman's daughter has shackled her son.—Mother's Magazine.

### HUMAN RADIATOR

First Hobo—You're lookin' fine, Hazy. Ain't you cold?

Second Hobo—Nope. I slep' in a garage las' night an' drunk a gallon of anti-freeze mixture.

### PRESIDENT GOT EVEN.

Apropos of the human side of President Wilson, the president was out for a ride in his motor car one afternoon. The machine passed a small boy standing beside the road.

"Did you notice what the boy did when we passed?" the president asked.

"No, Mr. President, I did not."

"He made a face at me."

"Is it possible?" exclaimed the shocked companion. "I didn't observe him."

"He did," said the president; "but you notice what I did?"

"No, sir."

"Well," answered the president happily, "I made a face right back at him!"—Saturday Evening Post.

### RELIGIONS OF PRESIDENTS.

Of the presidents of the United States there have been eight Episcopalians, eight Presbyterians, four Unitarians, four Methodists, two Dutch Reformers and one Disciple. Jefferson was a believer in Christianity, though not an adherent of any denomination.

### ODD RESTORATIVE.

Englishman—Why has that crowd assembled at the corner?

Passerby—A bald-headed man has fainted.

Englishman—Give him hair, give him hair.

### ONE EXCEPTION.

"That rich old curmudgeon could make nobody happy."

"You're mistaken. He could make his widow happy."

### THE MANNER OF IT.

"Did Tommy take the jam openly?"

"I rather think he did it surreptitiously."

### THE RESULT.

"Did you test old Jaggins?"

"Yes."

"How did you find him?"

"I found him testy."

### RED BOTTLES BEST FOR MILK

### EAT SLOWLY AND BE WELL

French Physician Asserts Color Will Keep the Contents Fresh for Some Ten Hours.

"Boltling" of Food is One of the Chief Causes of Disturbance of Digestive Organs.

To keep milk fresh, put it in red bottles. That is the explanation given by Dr. Eduard Pantet of Versailles, France. He has reported some interesting experiments concerning the influence of red light on milk, and says red bottles solve the milk preservation problem by keeping it fresh for ten hours.

That light is a detriment to the preserving of milk is well known, but which of the rays really did the mischief was not known until Doctor Pantet experimented. He found after testing all colors that red rays were beneficial, but that those toward the violet side of the spectrum caused the milk to "turn."

Doctor Pantet proved his experiment by placing sterilized and unsterilized milk in uncolored bottles in the light for a full day. They were both spoiled and both equally bad. At the same time both kinds of milk were placed in red glass bottles, and at the end of the day both kinds of milk were found to be fresh, even the unsterilized milk being good for many hours.

### HIS ADVICE

Landlady—The man who has the third floor back is behind in his rent, and they say he won't work.

Second-Floor Lodger—Well, I wouldn't worry about an idle roomer.

### Warships for China.

When the Creditanstalt, the Escomptebank, and the Laenderbank subscribed a portion of the Chinese loan to the amount of £1,500,000 (\$7,299,750) in 6 per cent bonds, it was agreed that the Chinese government should favor Austrian industries with orders for ships. In compliance with this agreement, the construction of three Chinese cruisers has been ordered, which will be built at Monfalcone, near Trieste. The cruisers will cost 10,000,000 crowns (\$2,000,000). It is reported that some of the machinery will be constructed in Bohemian factories.

### LEADING ACTOR NOT THERE

Stories of Absent-Minded Folk Are Many, and This is One of the Best of Them.

There have been a great many stories about absent-minded men and they are always enjoyable. This concerns a man named Rogers, who lived in a small town and owned a Jersey cow, which he used to drive morning and evening to and from the pasture, not far from his home.

One morning, as a neighbor was passing along the road, he met Mr. Rogers walking in the middle of the lane, his mind apparently engrossed in some weighty questions. The neighbor called out: "Good morning, Mr. Rogers. Where are you going?"

"Why," answered Mr. Rogers, in a surprised way, "I am driving the cow to pasture."

"Where is the cow?" asked his friend.

Mr. Rogers looked around vaguely and then said humbly, "I suppose I forgot to let her out of the barn." And so he had.

## TEST EXPLOSIONS OF DUST

Experimental Station Endeavors to As-  
certain Reasons for Tragedies  
Occurring in Mines.

Some experiments to find out how  
explosions act were recently under-  
taken in the gallery of a mining ex-  
perimental station. Coal Age de-  
scribes them as follows:  
The coal dust having been strewn  
in the gallery and the cannons  
charged, the ventilating fan was  
started, both the doors in the fan  
chamber being wide open so that no  
air current was drawn through the  
explosion tube. As soon as the speed  
of the fan had attained that required  
for the experiment these doors were  
closed by a card controlled from the  
firing station, and the air current  
was thus drawn through the open  
end of the gallery. The doors when  
closed completed an electric circuit,  
which rang a bell in the firing sta-  
tion and started a second clock. Six  
seconds after the closing of the fan  
doors the "cloud-raiser" was fired,  
and the "igniter" was fired two sec-  
onds later, the charges in both being  
ignited by electricity.  
The explosions as thus produced  
can be regarded as taking place in a  
tube open at one end and closed at  
the other, for the right-angle bends  
at the fan end of the gallery greatly  
retarded the release of pressure and  
had the general effect of a closed end.

## PERILED LIFE FOR MONEY

Vienna Woman Set an Example of De-  
votion to Husband Which Will  
Make Many Shudder.

In order to help her husband,  
whose affairs were in a desperate  
way, and who urgently needed funds,  
Mme. Solange d'Atalide, a French  
circuit rider in Vienna, conceived a  
way of making money at the immin-  
ent peril of her life.  
She contracted with a cinemato-  
graph company, for a large sum, to  
furnish it with a unique and highly  
sensational film. She undertook to  
ride a horse on top of one of the cars  
on the Big Wheel all the way round.  
The wheel, as all who have seen it  
are aware, reaches a perilous and  
dizzy height, trying to the nerves  
even of the passengers safely seated  
in the interior of the cars. But to  
ride outside on horseback must in-  
deed be a terrible trial, which neces-  
sitates the utmost courage and nerve.  
Mme. Solange d'Atalide passed  
through the perilous ordeal with  
credit, watched by a huge and awes-  
trunk crowd. The horse had been  
trained by being placed upon the top  
of a large van, which was moved  
about. As for the cinematograph  
operators, they were at a giddy  
height, seated on the hub of the  
wheel, and were heartily glad when  
the whole thing was over.

## ENGLISH BEES IN DANGER.

Extinction of the bee is threatened  
in South Wilts, England, owing to a  
fresh outbreak of the devastating  
"Isle of Wight" disease. Many  
small holders have been deprived of  
part of their livelihood, for the  
honey harvest brought them in some  
pounds, which helped to pay the rent.  
Villages in the Wylde valley, those  
bordering on the Avon, and the scat-  
tered villages on the Wiltshire  
Downs, all have the same tale to tell  
of the loss of their bees. Several  
bee farms near Salisbury have been  
practically wiped out, the bees dying  
by thousands. They appear to be af-  
fected by a creeping paralysis soon  
after returning to the hive from a  
day spent in the fields.

## APPLIED NATURAL PHILOSOPHY.

Pat had been engaged to take a  
trunk across the lake. He placed the  
trunk in the bow of the boat, with  
the result that the boat tipped for-  
ward.

Man (on the dock)—What are  
you rowing with that trunk in the  
bow of the boat for, Pat?

Pat—Sure, an' if it was in the  
stern wouldn't I be rowin' uphill all  
the time? An' this way I'm rowin'  
downhill all the time!

## THE BEST POLICY.

Employer—But if I take you on,  
some other man will have to lose  
his work.

Applicant—Oh, the little I'll do  
won't hurt anybody.

## WHY NOT?

Silas—Are you in favor of taxing  
cats?  
Hoz—Sure. Every polecat should  
pay a poll tax.

## Summer Constipation Dangerous.

Constipation in Summer-time is  
more dangerous than in the fall,  
winter or spring. The food you eat  
is often contaminated and is more  
likely to ferment in your stomach.  
Then you are apt to drink much  
cold water during the hot weather,  
thus injuring your stomach. Colic,  
Fever, Ptomaine Poisoning and oth-  
er ailments are natural results. Pe-D-Lax  
will keep you well, as it increases the  
bile, the natural laxative, which rids  
the bowels of the congested poison-  
ous waste. Pe-D-Lax will make  
you feel better. Pleasant and effec-  
tive. Take a dose to-night. 50c at

## ROSY IN ENGLISH SPORT NOW.

It is rather amusing to note how  
an English success at sport elates a  
certain class of critics, just as they  
are correspondingly depressed when  
a foreigner beats a home athlete at  
some pastime which we choose to  
think is particularly English. Re-  
cently, for example, our English  
golfers did well in three different  
competitions—Miss Leitch beating a  
Scotsman in the ladies' champion-  
ship, Batley and Holland winning  
the Professional Golfers' association  
foursome tournament, and the Amer-  
icans falling down badly in the St.  
George's cup. Accordingly, all is  
rosy with English sport for the mo-  
ment.—London Globe.

## THE ONE PLACE.

"Where are you going for the sum-  
mer?"  
"I don't know," said the weary  
citizen.

"Well, I can tell you of a place  
where you'll find no mosquitoes, no  
noise, no inferior food; no fatiguing  
requirements as to dress; where the  
fishing is always good and the tem-  
perature ideal."

"I know," replied the weary citi-  
zen. "There is such a place. But I  
don't feel like starting for heaven  
yet."

## Infection and Insect Bites Dangerous.

Mosquitoes, flies and other insects,  
which breed quickly in garbage pails,  
pools of stagnant water, barns,  
musty places, etc., are carriers of  
disease. Every time they bite you  
they inject poison into your system  
from which some dread disease may  
result. Get a bottle of Sloan's Liniment.  
It is antiseptic and a few  
drops will neutralize the infection  
caused by insect bites or rusty nails.  
Sloan's Liniment disinfects Cuts,  
Bruises and Sores. You cannot af-  
ford to be without it in your home.  
Money back if not satisfied. Only  
25c, at your Druggists.—Advertisement.

## Tomato Juice for Stains.

Tomato juice is said to be success-  
ful in many cases in removing ink-  
stains from white materials, such as  
handkerchiefs, muslin frills, etc. It  
must, however, be done as soon as pos-  
sible after the mishap occurred. A  
clean piece of blotting paper should  
be laid under the stain, and a slice  
of raw, ripe tomato rubbed over the  
surface, fresh pieces of blotting paper  
being substituted until the ink spot  
has vanished.

## Children Cry FOR FLETCHER'S CASTORIA

The teacher had just read the myth  
about Perseus and Medusa. She wished  
to stimulate the imagination of her  
youngsters and asked them to de-  
scribe the hero as they pictured him.  
One little girl wrote: "Perseus was  
tall and stately with a black waxy  
mustache and wore a monolog over  
his left eye."

## AIDED BY "FAKED" PICTURE

French Statesman Helped in Election  
by Means Which Might Well Be  
Called Dubious.

Monsieur Richepin and Monsieur  
Cecaldi were opposing candidates  
for a seat in the French chamber of  
deputies. At one of their meetings  
an affray occurred in which one of  
M. Richepin's partisans was struck  
down by an assassin supposed to be  
of the Cecaldi party. The Paris  
journals have reproduced this scene.  
The truth was that in the riot it was  
impossible to photograph the scene,  
but the picture furnished by M.  
Richepin was dramatic in the ex-  
treme and doubtless aided in his  
election. M. Richepin was on his  
way home, accompanied by a number  
of faithful friends and some photog-  
raphers, when this dramatic picture  
was posed. He stopped at a bridge.  
There with his friends crowded about  
him, an excited throng, stood M.  
Richepin, one hand leaning upon the  
bridge, the other hand holding a  
handkerchief dripping with the blood  
of the murdered man. The blood for  
the handkerchief, it is said, came  
from a neighboring wine shop and  
was poured from a bottle of red ink.  
With this beginning a background  
was set in representing M. Richepin  
standing on the steps of the hotel  
where the tragedy occurred.

## EASY TO DECEIVE THE EYE

Many and Varied Are the Optical Illu-  
sions That Have Been Placed  
on Record.

A curious optical illusion is some-  
times seen as a motor car passes, the  
wheels of the moving vehicle appear-  
ing for an instant to stop or even  
turn backward. In an investigation  
reported to the British Royal society  
Prof. A. Mallock mounted a card-  
board disk with spokes on a flywheel,  
and when this was revolved so rap-  
idly that the spokes could not be  
seen or easily followed by the eye,  
and a slight mechanical shock of al-  
most any kind was given the observer  
the spokes appeared almost station-  
ary for a fraction of a second. Shocks  
having this effect were given in many  
ways, such as in the contact of the  
feet with the ground as in walking,  
by tapping the head or body, or even  
by rapidly blinking the eyes. It was  
proved that the appearances depend  
on the speed of rotation, the bright-  
ness of illumination, and to some de-  
gree on the nature of the shock. The  
explanation was offered that the  
shock produces a momentary loss or  
variation of sensation. This varia-  
tion of sensation does not last the  
same time in different persons, but  
is always very short, and usually  
about one-eighteenth of a second.

## THE PANAMA CANAL.

The idea of an isthmian canal,  
connecting the Atlantic and the Pa-  
cific oceans, is as old as the discov-  
ery of the isthmus itself. For 400  
years the notion of uniting the two  
seas has been in men's minds. The  
attempt of the French under La Les-  
seps failed, not from lack of en-  
gineering skill or funds, but from  
peculation and disease. The misap-  
propriation of the funds and the  
mortality resulting from fevers  
brought the project to its disastrous  
ending. It was science, eliminating  
the deadly fevers, that made it pos-  
sible for American money, brains and  
energy to do the great work.

## VANITY.

She—I like the way that man  
looks.  
Her—Why, he's positively ugly!  
She—Yes, but he's looking at me.

## ALL GONE.

"Well, my dear, did you get a quid  
pro quo in your bargains?"  
"No, indeed; I guess they must  
have all been gone when I got there."

## MEN IN MIND IN HOPKINSVILLE

People of Prominence In The Pearl City of The Penny-royal.

BIOGRAPHICAL SKETCH NO. 44.

Marshall L. Stockley, The Hustling Manager of The Princess Theatre.

One of the business enterprises that is giving pleasure and entertainment to the people every day is the Crescent Amusement Co., of Nashville, Tenn., the principal stockholders being Messrs. Sudekum and Williams. As in every other line of business, Hopkinsville as a picture show town is in the forefront. No cities of the same class anywhere have better picture shows than the Princess Theatre, one of the fifteen houses operated by the Crescent Amusement Co. And it may be said in addition that none of the fifteen houses in the "movie" syndicate has a better manager than M. L. Stockley, the young man who bids fair to double the business of the Princess his first year.

M. L. STOCKLEY.

Marshall L. Stockley was born in Galveston, Texas, in 1879, during one of the great gulf storms that preceded the greatest of all American floods in 1900, when the city of Galveston was flooded and 6,000 lives lost. Stockley was a youngster of 21 when that happened and now he prefers to live on dry land about 1,000 miles from tidal waves.

He was in Indiana when the picture show business became a popular fad seven years ago and started one in La Porte, Ind. He proved to be a "horn manager" and soon found a better opening in Clarksville, Tenn., where he remained a year or two. When Geo. A. Bleich came to Hopkinsville about four years ago and opened the old Princess on Main street, Stockley sold out and came with him and the two made a team that soon put the Princess on the high road to prosperity. Then Bleich sold out to the Crescent Amusement Co., after running the new Princess for a year. The new owners not only got the handsomest of all their theatres, seating 700 people, but they got another most valuable asset in Stockley, who was retained as one of their managers. He was first sent to the Elite at Jackson and then to the Majestic at Knoxville, where he was badly needed in each instance. Knoxville had five shows when the Majestic started and in short order

Stockley ran three of them out and in a year's time was the acknowledged leader in his line of business. Last March when Messrs. Sudekum and Williams began looking for a live wire for Hopkinsville, their thoughts naturally turned to Stockley. He was a Willin' Barkis, for he had been here long enough to fall in love with Hopkinsville, and so he came five months ago and hit the ground hustling. He has kept it up with such success that he has increased the business 40 per cent and gets frequent increases in salary without asking for them.

The Princess under his management is riding on the top wave of popularity. Its programs embrace the best productions of the licensed companies, notably the Edison, Lubin, Biograph, Vitagraph, Essanay and Hearst-Selig Pictorial Companies.

Mr. Stockley is noted for his affability and courtesy, but with it all is strictly business. He never sleeps on his job, but is always on the spot, wide-awake, alert and untiring. He likes Hopkinsville and Hopkinsville likes him. The public has learned to trust him to give value received for every dime that passes through his window. Not every man who comes to Hopkinsville has in him the stuff to make good. It takes brains, business ability and hustling qualities to succeed in a town where every man is a booster and only the best will satisfy. Stockley has made good and things are coming his way.

You will recognize the features here portrayed, but the artist caught him without the smile that he wears on his face, a smile that seldom comes off. He is a married man and has one child and lives on North Main street.

### Going Home To Fight.

Clarksville, Tenn., Aug. 5.—Richard Durzelmann and C. F. Tolner, resident German tobaccoists, left Clarksville last night for New York city, whence they will sail by the first available steamer for Germany. They have received orders from the German consul to report to the war department of their native country preparatory to assignment for service in the approaching European conflict. They each hold the commission of lieutenant in the German army. Their homes are at Bremen.

### Money Measures.

The Senate and the House both passed the emergency measure unloading more than a billion dollars of currency, and the House passed the bill waiving restrictions on American registry for foreign-built ships to assist trans-Atlantic commerce. Both houses passed a bill appropriating \$250,000 to be used by the President to care for Americans in Europe.

### Court at Murray

Murray, Ky., Aug. 5.—The regular August term of the circuit court convened here Monday, Judge J. T. Hanberry presiding. This is a short term of court, it only lasting two weeks, and the criminal docket is unusual light. There are no important cases to come up this term.

**How To Give Quinine To Children.**  
FEBRILINE is the trademark name given to an improved Quinine. It is a Taster's Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for 2-ounce original package. The name FEBRILINE is blown in bottle. 25 cents.

## AUTO AND TRIP CONTEST NEARING THE CLOSE

Big Vote Offer This Week Will Probably Decide The Winners of The Auto And Trips--Contestants Are Hustling-- Help Your Favorite.

### THE BIG OFFER.

With each and every club of \$10 turned in on subscriptions this week, by Saturday night, Aug. 8, 55,000 extra votes will be allowed. Contestants will not be limited to any certain number of clubs. This is a great opportunity for those who want to win the Ford Touring Car or a trip to Mammoth Cave.

With only nine working days of the Kentuckian's Automobile and trip contest interest grows intense and most contestants are working with determination, and all who hope to win realize the importance of securing one or more of the 55,000 extra vote coupons. As this is the last big offer to be made it is the best time to secure a few five or ten year subscriptions. Look at the vote schedule and see the large number of votes allowed with 10-year subscriptions, and pick out several friends who you know will aid you to this extent.

In order to more equally distribute the trips the territory in the county outside of the city has been placed in one district. Six trips will be awarded this district provided of course that six active contestants remain in the district until the contest closes. No one who makes no effort from now until the contest closes will be given a trip.

The free vote coupon is published to-day for the last time and all of these coupons must be in this office by Saturday Aug. 8, as none of the free votes will be counted after that date. If you do not get them turned in by above date, they are void, and should be destroyed.

"Sunset" Smith, ex-major receiver, is certainly showing some class behind the rubber and with the willow for the Vol's this year. In Monday's double bill at the Dell the sorrel-topped gent got three safe wallops, one of which went for two

sacks. The Nashville Tennessean for Tuesday praises Smith's work in the following manner:

Red Smith put up a brilliant game behind the mat and his three hits were well-timed. His pegging was as good as has been shown here this year and the result of various efforts to steal was one pilfered sack.

### In Hard Lines.

The Henderson Gleaner reports that the Henderson Ball Club is on its last legs. For some time the gate receipts at Henderson have fallen far short of the expenses and the local magnates there are making a last appeal to the fans to wake up. If a decided change does not take place on the part of the fans, it is probable that the Henderson Club will either sell its franchise or drop from the league.

## KINCHELOE GRATEFUL

Nominee For Congress Issues Card To Voters Of Second District.

To The Democrats Of The Second Congressional District:

Words are inadequate to express my thanks and appreciation for the overwhelming majority that you, my loyal and true friends, gave me last Saturday in my race for Congress. I only wish I could take each by the hand and thank you personally. I owe you a debt of gratitude I can never pay, except in public service. I feel more keenly than ever the responsibility that is now upon me.

I have not an unkind word to say against those who were against me. Democrats have a perfect right to choose between democrats. I know they are all for me now and will help me poll a great majority in November.

I shall devote my best energies and what talent I have to my constituency and try to repay in service the generous people of this great district.

With a heart full of gratitude, and again thanking you, I am  
Yours for service,  
D. H. KINCHELOE.

HENSON CONGRATULATES  
DAVID H. KINCHELOE.

Declares He is Ready to Enter Campaign in Nominee's Behalf.

(Henderson Gleaner.)  
The following letter of congratulations has been sent by Judge Henson to David H. Kincheloe:  
Henderson, Ky., Aug. 3, 1914.  
Hon. D. H. Kincheloe,  
Madisonville, Ky.

My Dear Sir:—  
I desire to congratulate you on your splendid victory. I am for you and if I can be of any service to you do not hesitate to call on me.  
I am, yours truly,  
J. W. HENSON.

## In Society

### Lawn Party.

Tuesday night William Were entertained at a much enjoyed lawn party in honor of Miss Katherine Whitlow, of Pembroke. The guests met at Virginia Park and were taken in a hay wagon to the party.

The lawn was beautifully hung with Japanese lanterns. Delicious ice cream and cake were served.

### Epworth League Picnic.

The Epworth League had a picnic Tuesday night at Wm Dougherty's place on the Fairview road. The league went out in a hay wagon and stayed from about 7 o'clock until 11. A delightful picnic lunch was served.

### Miss McPherson Honored.

Capt. C. P. Thomas gave a boat party on the Long Hunter last week in honor of Misses Willie and Mary Moss and their attractive guest Miss Elizabeth McPherson, of Hopkinsville. The party left at 3:30 going down to Thomas' Landing where luncheon was served.—Bowling Green Messenger.

### At Elks Home.

Miss Alice Merritt was the hostess of one of the most enjoyable social functions of the season, Tuesday night at the Elks Home, in honor of her guests Misses Eloise Ginn and Anna Steele, of Lexington. The reception lasted from 9 to 12. Delicious refreshments were served.

### Entertains Mardi Club.

Miss Ruth Fritz entertained Mardi club Tuesday morning in honor of Misses Steele and Ginn, of Lexington, who are the guests of Miss Alice Merritt. Delightful refreshments were served. Those present were: Misses Anna Steele, Eloise Ginn, Alice Merritt, Ruth Oldham, Mattie Crenshaw, Bertha Cayce, Adelia Williamson, and Grace Salce.

Mrs. W. Ray Moss and son, Ray, left yesterday to spend several days in Trenton.

## FATAL SHOOTING AT MERRITT'S TOWN

A Colored Settlement on The Canton Pike, Near The City.

Monday night near Brent's pit Merritt's town, a colored village on the Canton Pike, a fight between two negro boys took place, which resulted in the killing of one of them. That evening there had been a big barbecue and the negroes were dancing and enjoying themselves.

George Poole, the young man who was shot, had a quarrel with Sam Jones about a girl. The discussion developed into a fight and Jones shot Poole three times. Two of the shots lodged near Poole's stomach and the other in his leg. Poole was put in a buggy and started towards his home, but died before reaching there.

A warrant for the arrest of Jones was issued by Judge Knight Tuesday morning.

### ENGLAND'S POSITION.

Neither Belligerent Nor Neutral. Distrusts Germany

London, Aug. 3.—Great Britain has mobilized her forces and awaits events. Today she is not a belligerent power, nor is she a neutral one.

The government has given France assurance that the British fleet will not permit the German fleet to attack the French coast. It has not yet pledged itself to contribute an army to the continental war.

The British government regards with the deepest distrust Germany's violation of Belgium's neutrality, but makes no declaration as to whether it considers that measure provocation for war.

This pronouncement of government policy—the result of two days almost continuous deliberations—was made to the house of commons late today by Sir Edward Grey, secretary of state for foreign affairs.

### STILL AT IT

In Mexico Villa Starts Rebellion Against Carranza Government.

El Paso, Tex., Aug. 4.—Gen. Francisco Villa virtually has proclaimed his independence of the Carranza Government, according to reports brought here to-day by arrivals from all parts of Northern Mexico. Villa has begun reorganizing his army. Gen. Felipe Angeles, Carranza's deposed Secretary of War, is in charge of the reorganization. A movement is on foot for the immediate distribution of lands. Carranza has not been informed, so far as is known.

### RENOMINATION OF

#### STONE INDICATED.

St. Louis, Aug. 5.—Meagre returns from the state-wide primary last night indicate the renomination of United States Senator William J. Stone on the democratic ticket, and the nomination of Thomas J. Akins, of St. Louis, as republican candidate.

Four of the fifteen democratic congressmen from Missouri were renominated without opposition. They included Champ Clark and Dorsey W. Shackelford.

### More Money Than Crops.

Local bankers held a special meeting yesterday to consider the financial situation, later announcing that, with over \$11,000,000 in emergency currency and crop money available for Louisville, if needed, the local position was well fortified.

Dayton's experience with Nashville against the Southern League sphere tossers seems to have improved his smashing ability. Monday he got two home runs in one game.

### Hogs Bid Lower.

Kansas City, Aug. 3.—Packers refused to pay more than \$8.10 for hogs late today, which was forty to fifty cents lower than Saturday.

Loving W. Gaines and daughter Miss Imogene of Trenton were in the city Tuesday.

# THE WORLD WAR HAS COME

5,000,000 men have been called from the Harvest of Grain to prepare for the Harvest of Death.

The Nations which produce over one-half of the world's supply of wheat are turning their fields into Battle Grounds.

"An army moves on its belly," and the call for food for the fighters has sent the price of wheat skyward in the Chicago Pit.

Europe's misfortune is America's opportunity. The days of Dollar Wheat are near at hand and every bushel of wheat which you can add to your 1915 crop will surely add a dollar to your bank account.

Now is the time to feed your crop so that you may feed the world and get the profit.

The favorable wheat growing conditions of the past season gave every thinking farmer an opportunity to see for himself the big profits from proper fertilizing.

35, 40, 50 bushels per acre in sections where average yields were 15 to 20 bushels are the common reports from those who used our fertilizer.

There is a reason why GLOBE FERTILIZER grows the biggest crops and brings you the biggest profits. It saves your money by furnishing to the plant readily available plant food to start it off and giving you, instead of Worthless Filler, Finely Ground Bone Phosphate of Lime and Burley Tobacco Stems to become available to fill out the grain. It saves your time by coming to you in perfect mechanical condition. It pays best because it is the BEST.

The voice of your opportunity says: "Increase your use of GLOBE FERTILIZER and furnish the wheat."
